

# Read First ChartFire

Thanks for evaluating ChartFire – the indispensable plug-in that lets you go beyond the data representation capabilities of FileMaker!

## Installation Instructions

Be sure to read the license agreement enclosed with this package before you start using the plug-in since you agree to the terms of the trial license agreement as soon as you start using the software.

To install the correct plug-in version of ChartFire, open the folder 'Plug-In' and choose the plug-in file from the correct sub-folder (Windows or Mac OS) according to your operating system.

Close FileMaker before installing the plug-in.

ChartFire is compatible with FileMaker 7 Pro/Developer/Runtime and FileMaker 8-11 Pro/Advanced/Runtime.

Windows:

Copy the plug-in file to your FileMaker *Extensions* folder, which is located in your FileMaker application folder.

Mac OS:

Copy the extracted plug-in file to your FileMaker *Extensions* folder, which is located in your FileMaker application folder.

After installing the plug-in please read the tutorial to get started with ChartFire.

## Registration Information

ChartFire is commercial shareware. You are allowed to try this FileMaker plug-in for 14 days. After that the plug-in cannot be used any longer without registration. Any restrictions will be removed as soon as you register ChartFire.

New ChartFire users:

If you are new to ChartFire you will find the prices and detailed information about ChartFire licenses on the License Programs page at: <http://www.dacons.net/fmplugins/chartfire/licenses/>

Please contact us at [info@dacons.net](mailto:info@dacons.net) if you have questions regarding our licenses.
